Head of Organization Name:

Title:

Program Name:

Brief Description of Program:

How does the program work to reduce poverty?

How many people are served each year?

Is there currently excess demand for the program?

What data is currently available on program participants?

Is there any preliminary evidence of the program's success? If program is new/under development, what evidence inspired the program's design?

There are costs associated with a typical program evaluation, including the costs of data collection, survey construction, etc. LEO does not expect local agencies to pay the cost of evaluation but expects that agencies will work with LEO to find external funds from donors. Are there currently potential sources of external funds to pay for the program/evaluation?
